

COMFORT CONTROL

THERMIDISTAT™ CONTROL
& THERMOSTATS

Responsive Temperature & Humidity Control

Enhanced Comfort Control

At Bryant, we understand that indoor comfort is important. That's why we've been developing top-quality indoor comfort products for nearly one hundred years. From generation to generation, homeowners everywhere have turned to Bryant for the comfort, energy-efficiency and reliability that they deserve.

Bryant thermostats and the thermidistat™ control combine proven technology and user-friendly designs for enhanced comfort without all the fuss. No matter which of these controls is right for you, the simple instructions, easy-to-read display and soft, responsive buttons make controlling temperature and humidity a breeze.

WARRANTY

Bryant guarantees your comfort with written warranties. Our thermostats and thermidistat™ control are covered by a one-year limited warranty. Extended warranties are also available. Ask your trusted Bryant dealer for details.

Heating & Cooling Systems
Since 1904

All Of Our Thermostats Come Fully Equipped With The Following Conveniences.

- Extra readability—even in the dark—with display panel that lights up on demand
- When heating and cooling operation are needed on the same day, auto changeover provides automatic comfort control
- You'll always remember routine filter maintenance with our clean filter indicator
- Check the temperature outside before leaving home or sending the kids off to school using the outdoor temperature display

Thermidistat™ Control

Controlling Your Indoor Humidity.

A Bryant Thermidistat Control accurately maintains your desired temperature and humidity to enhance the comfort provided by your heating and cooling system.

- Combines the functions of a thermostat and a humidistat to provide temperature and humidity control
- The single touch of a button tells vacation mode to adjust all comfort levels for optimum efficiency while you're away—or return to normal when you're back
- Enjoy consistent heating and cooling right on time as smart recovery gradually adjusts indoor temperatures before a scheduled change

- Automatically adjusts humidity setting when used with an optional outdoor temperature sensor
- Can be set up as a standard thermostat. You will still get the benefits of accurate temperature and humidity control for enhanced comfort

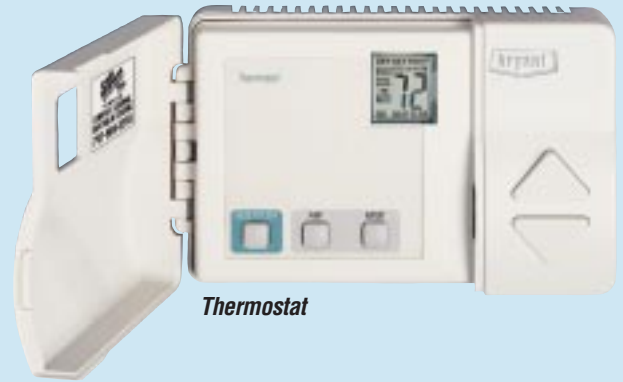

Enjoy the perfect blend of year-round comfort and energy savings by combining the Thermidistat Control with a Bryant variable-speed gas furnace or variable-speed fan coil.

Control That's Easy To Use.

Programmable Thermostat

Thermostat

Easy-To-Follow Instructions

Copy Previous Day

Extra Efficiency And Comfort Control.

A Bryant programmable thermostat enhances your comfort and energy savings with its seven day programmability. These thermostats can be set to provide up to four temperature changes per day. That means you can keep your family comfortable when you're home and save money through reduced energy usage when you're away or asleep.

- Simple instructions are located inside the thermostat's door for your convenience
- Duplicate your comfort schedule from one day to the next using the copy previous day function
- Bypass your regular schedule with a setting that makes sense for the occasion with our hold button

Large, Backlit LCD Display

Soft Rubber Buttons

The Comfort Solution.

If a programmable thermostat offers more than you need, Bryant offers an entire line of simple, effective thermostats that may be the best solution for your comfort.

- Clean appearance
- Soft, responsive buttons
- Easy-to-read backlit LCD display.
- Accurate, reliable temperature control
- When both heating and cooling are needed on the same day, auto changeover switches system operation automatically
- The perfect complement to a total comfort system from Bryant

A Tradition Of Value Since 1904.

Bryant has been building top-quality home comfort products that families everywhere can rely on since 1904. As America's leading source for indoor comfort products, we take the needs of homeowners very seriously. Starting with a simple gas valve, Bryant has developed a full line of reliable indoor comfort products such as furnaces, air conditioners, heat pumps, fan coils, evaporator coils, air cleaners, humidifiers, ventilators, zoning systems, thermostats and thermidistat controls. All of these products offer the comfort and value that homeowners expect from the most trusted name in the home comfort industry.

Your local Bryant dealer can determine your needs and build an effective, reliable total home comfort system that fits your needs. You can also count on him to maintain your system so it will provide the most comfort and energy savings for your investment.
