

# PROGRAMMABLE THERMIDISTAT™ CONTROL

ENHANCED INDOOR WEATHER WITH TEMPERATURE AND HUMIDITY CONTROL

# CARRIER'S THERMIDISTAT™ CONTROL IS YOUR INDOOR WEATHER STATION.

## CUSTOMIZED COMFORT

Carrier's Thermidistat™ Control puts you in charge of both temperature and humidity so you can truly enjoy custom made indoor weather. We've combined the functions of two controls, our programmable thermostat and our humidistat, to create a product that will positively affect your comfort. The Thermidistat™ Control can deliver consistent indoor temperatures while minimizing the discomfort of sticky, humid summers and dry, winter air. And, it offers the same, intuitive programming and easy-to-read display as our popular thermostats. Just take a few minutes to program your desired temperature and enter your humidity settings and let Carrier do the rest.

## USER-FRIENDLY

Our Thermidistat™ Control offers a wide range of functions designed to enhance your indoor weather and make programming and operation easy. When setting up your Thermidistat™ Control, you'll appreciate the time-saving "copy previous day" function. Once you have set your comfort schedule, Smart Recovery makes sure your system delivers the temperature you want at the time you want it. And, you don't have to reprogram the system for family trips because the Thermidistat™ Control switches over to vacation settings with the single touch of a button. Attractive appearance, simple operation and custom made indoor weather — it's all yours with Carrier's Thermidistat™ Control.

## FEATURES & FUNCTIONS

**One control** puts you in command of your indoor temperature and humidity.

**Automatic humidity control** is an option that lets your system automatically adjust indoor humidity based on current outdoor conditions. This function minimizes condensation build-up on your windows.

**Vacation mode** provides a one-button method for switching between your normal comfort schedule and a vacation schedule that makes sense while your home sits empty.

**Indoor humidity** display allows you to view the relative indoor humidity.

**7-day programmability** allows you to develop a custom made comfort schedule that makes sense for your lifestyle.

**Auto changeover** automatically switches between heating and cooling operation on days when both heating and cooling are necessary.

**Smart Recovery** helps your system deliver the right temperature at the right time. Heating or cooling operation starts before a scheduled temperature change to gradually achieve the comfort level you have selected.

**Clean filter indicator** reminds you when it's time to clean or replace your system's air filter.

**Copy previous day function** makes programming faster and easier.

**Large push buttons** respond quickly to your touch and are easy to work with while operating your Thermidistat™ Control.

## WARRANTY

You can enjoy your indoor weather without worrying about your system because Carrier backs all of its products with written warranties. The Thermidistat™ Control is protected by a **one-year limited warranty**. Ask your dealer for details on our extended warranties.

As an ENERGY STAR® Partner, Carrier Corporation has determined that this product meets the ENERGY STAR® guidelines for energy efficiency.

**Easy-to-read LCD display** lights up for accurate readings at a glance, even under low-light conditions.
