

ZONE PERFECT™

TWO-ZONE

Indoor Comfort Where You Need It.

# Bryant's Zone Perfect Two-Z

At Bryant, we work hard to create a comfortable home for you and your family. In fact, we've been developing top-quality home comfort equipment for nearly one hundred years. From generation to generation, families everywhere have turned to Bryant for comfort they can count on.

With a nationwide network of independent dealers, Bryant can ensure that you receive the comfort, energy-efficiency and reliability that you deserve. Through our innovative designs, skilled craftsmanship, dedicated dealers and expert service technicians, we provide homeowners with the most reliable home comfort products in the industry. Your trusted Bryant dealer can assess your individual needs and recommend the indoor comfort system that's right for your family.

## WARRANTY

*Bryant guarantees your comfort with written product warranties. Our zoning systems are guaranteed by a one-year limited warranty. Extended warranties are also available. Ask your trusted Bryant dealer for details.*

## Get The Most From Your Indoor Comfort System.

At Bryant, we understand that your home environment is important. That's why we designed the Zone Perfect Two-Zone to answer your specific indoor comfort demands. By dividing your home into two separate areas, or zones, the Zone Perfect Two-Zone can deliver different comfort to each zone according to season, energy-efficiency or personal preference. That's important, because the needs of each of these areas can be affected by large windows, high ceilings, positioning of the sun and other variables. With Zone Perfect Two-Zone, you'll enjoy enhanced temperature control and ideal comfort.

## Practical Performance.

With a thermostat in each zone, Zone Perfect Two-Zone can detect where and when conditioned air is needed. These thermostats send information to a central controller which activates your indoor comfort system, adjusting the dampers

in the ductwork and sending conditioned air to the zone in which it is needed. Combined with a Bryant programmable thermostat, Zone Perfect Two-Zone can be programmed to automatically turn back the heating or cooling when you're away at work. This kind of control allows you to enjoy ideal comfort and energy savings.

*Zone Perfect Two-Zone will direct conditioned air into the areas where it's needed most so you can enjoy consistent comfort without the trouble and expense of operating two indoor comfort systems.*

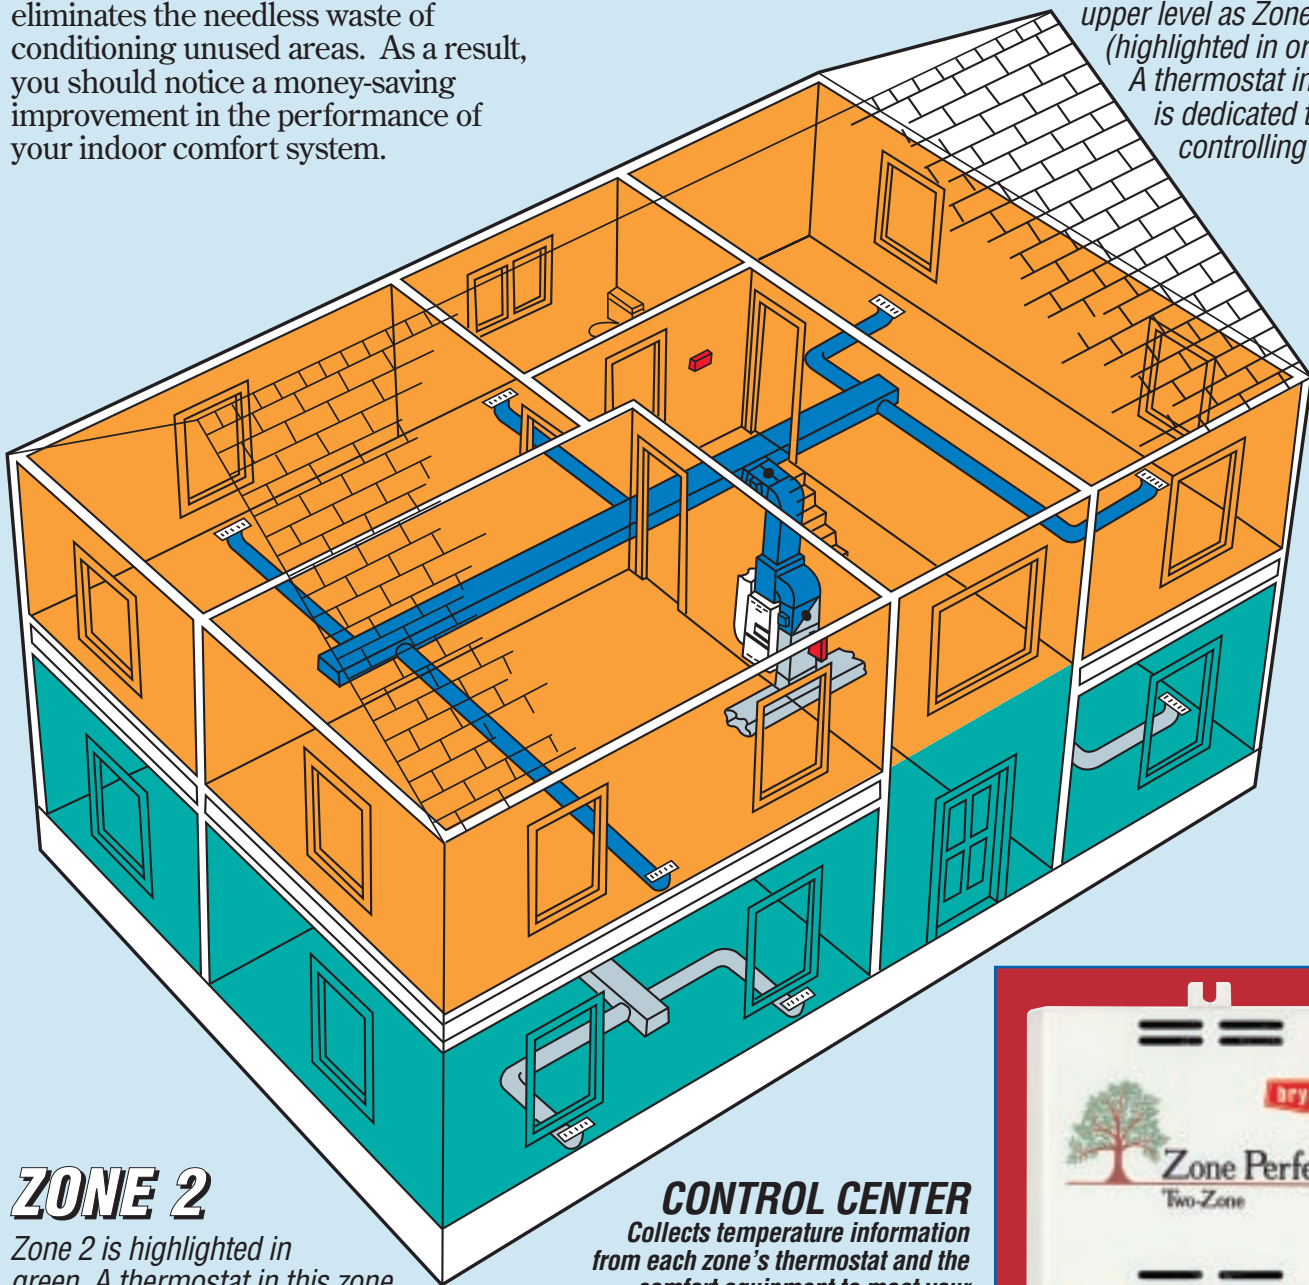

# Zone Delivers Ideal Comfort.

## Enjoy Extra Energy Efficiency.

By providing conditioned air only to areas that are in use, a zoning system eliminates the needless waste of conditioning unused areas. As a result, you should notice a money-saving improvement in the performance of your indoor comfort system.

## ZONE 1

Zone Perfect Two-Zone allows you to divide your home according to your family's needs. In this example, we have designated the upper level as Zone 1 (highlighted in orange). A thermostat in Zone 1 is dedicated to controlling that area.

## ZONE 2

Zone 2 is highlighted in green. A thermostat in this zone monitors temperature to control comfort in the area of your home that you use the most.

## CONTROL CENTER

Collects temperature information from each zone's thermostat and the comfort equipment to meet your heating or cooling needs. Zone Perfect Two-Zone can be used with a non-programmable thermostat. However, for even greater comfort and control, install a programmable thermostat so you can specify the time of day you desire specific indoor temperatures.

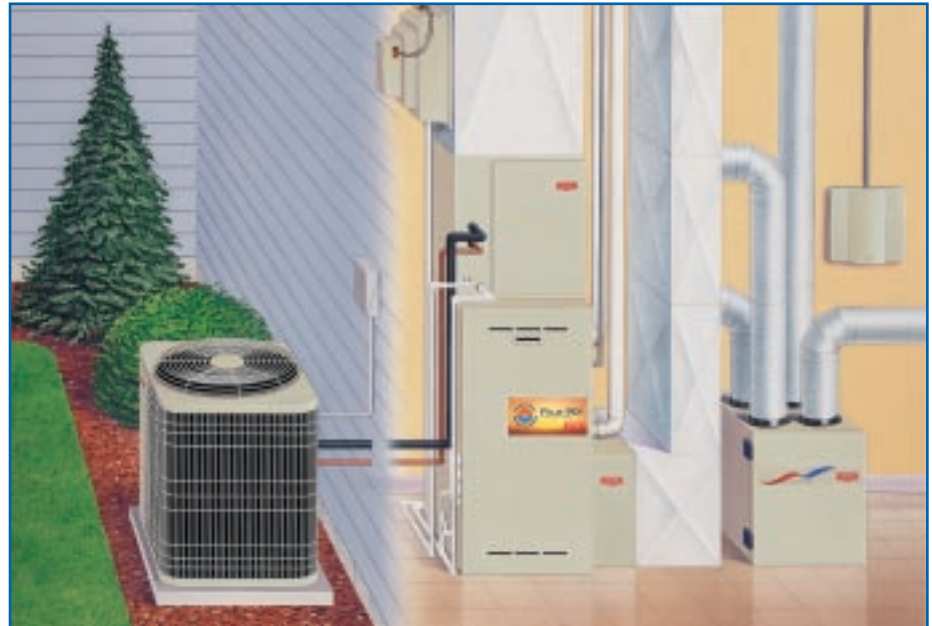

# Americans Have Relied On Bryant Since 1904.

Bryant has been America's leading choice for indoor comfort since 1904. Our Zone Perfect Two-Zone is just one example of how Bryant delivers indoor comfort that you can trust.

Ask your local Bryant dealer about our complete line of air conditioners, furnaces, heat pumps, fan coils, air cleaners, humidifiers, ventilators and thermostats. He can help you build a total indoor comfort system that will meet the exact needs of your family.

Being comfortable is easy when you choose Bryant. With your local Bryant dealer at your service, you can build and maintain a system that provides lasting comfort year after year. Ask your trusted Bryant dealer about simple, worry-free comfort that you can count on.
